To Whom It May Concern:

Rod Rodriquez worked under my supervision as a web designer/developer for the past six months. His responsibilities included creating, developing and planning our web site from conception to completion. He designed our initial site layout, prepared our budget, created our logo, and provided constant creative input throughout the process.

We were impressed with his professionalism in going that extra mile while still being able to deliver on time and under deadline. Rod holds himself up to a very high standard and his able to perform to that standard.

It is my pleasure to recommend Rod Rodriquez for any web/designer developer job and feel confident that you will not only received a talented gifted designer but a flawless product.

If you would like any further information, please do not hesitate to contact me.

Sincerely
